

This year we recommend that you wear your gumboots out at the Pond. This is due to flood damage and the remedial work that had to follow for the clean up.

Fish and Game will have some bait (squid pieces – which stay on a worm hook better) and some 'rigs' set up for those that are a bit new to this. If you have fished with bait before (worms etc) come with that.

Fish and Game will be there to help out. For spinning small silver lures (slices/wedges) are easy to cast and work well. But bait on a small hook fished up off the bottom, above a weight is very effective.
